

# SILCO AF 833

## Product Description:

SILCO AF 833 is a APEO and VOC-free blend of modified aliphatic mineral oils for efficient defoaming and deaerating of water based paints & ink systems.

## Technical Data:

Form supplied:	opaque yellow liquid
Total solids:	> 98%
Active agent:	compound of hydrophobic aliphatic polymers
Ionic character:	non ionic
pH-Value:	not applicable
Processing:	Add to the millbase by stirring
Dosage:	Recommended level is 0.1 – 1.0% on formulation

## Properties:

SILCO AF 833 is used in water based

- with
- rotogravure inks
  - decorative paints
- 
- highly efficient defoaming
  - especially suitable for letdowns

good compatibility

## Special notes:

SILCO AF 833 is stable for at least 12 months at room temperature. Please avoid temperatures under 4°C and over 40°C.

Prevent from freezing! Stir before use!

## FDA-/BfR-Rules:

FDA: not available

BfR: not available

## Safety and MSDS:

For regulatory details such as the classification and labelling as dangerous substances or goods please refer to our corresponding Material Safety Data

## Sheet.Packaging:

- 30 kg hobbock
- 60 kg hobbock
- 120 kg drum
